Marine Security Advisory – 03/2025 (Supersedes Marine Security Bulletin 04/2025)

Subject: Security situation in the Arabian Gulf, Straits of Hormuz and Gulf of Oman

Dear Shipowners, Operators and Masters

The purpose of this Marine Security Advisory is to inform Owners/Operators/Company Security Officers/Masters that due to recent military strikes against Iran, it is likely that certain hostile actions against commercial shipping may be seeing a resurgence. Particularly, any vessels with ties to the United States, United Kingdom, and Israel are at a perceived greater risk for being targeted. Liberian flagged vessels transiting the Arabian Gulf, Straits of Hormuz and Gulf of Oman are to operate at security level 3 and implement all protective measures in their Ship Security Plan.

Recommendations

Vessels operating in these areas have encountered significant LRIT and AIS interference due to GPS jamming. As per International Maritime Organization (IMO) [Resolution A.1106\(29\)](#) paragraph 22, if the master believes that the continual operation of AIS might compromise the safety and security of his/her ship or where security incidents are imminent, the AIS may be switched off. Be advised that ships have been attacked with AIS switched on and off. While switching the AIS off can make it more difficult for the militia to track vessels, it will also make it more difficult for the vessel to receive support if needed.

All vessels should report to the UKMTO and register with the Maritime Security Centre for the Indian Ocean (MSCIO) in accordance with industry BMP (Best Management Practices) and take advice from the coalition forces operating in the area. Best Management Practices for Maritime Security (BMPMS) will continue to provide the necessary guidance for shipping to ensure threat and risk assessments are developed for every voyage to mitigate the risks presented by remaining security threats in the region. The shipping industry will continue to monitor and advise on maritime security threats to assist the safe transit of vessels and the seafarers.

UKMTO acts as the primary point of contact for merchant vessels and liaison with military forces in the region. Vessels are encouraged to register with UKMTO and report their positions (By email daily at 08.00 UTC) whilst operating in the area.

The MSCIO is the planning and coordination centre for the EU Naval Forces (EU NAVFOR). MSCIO encourages companies to register their ships' movements before entering the Voluntary Reporting Area (VRA).

All vessels transiting the Arabian Gulf, Strait of Hormuz and Gulf of Oman are also encouraged to report to the Information Fusion Centre – Indian Ocean Region (IFCIOR), this is a voluntary reporting measure that promotes cooperation, stability and communication with partner stakeholders in the region as well as aligns with the most recent measures published in BMP MS. Vessels with voyages through this area can find the appropriate link for vessel reporting at <http://117.219.8.190/ifcior/>
