MARINE CIRCULAR 116.1

To: ALL SHIPOWNERS, MANAGERS, MASTERS, DEPUTY REGISTRARS AND RECOGNIZED ORGANIZATIONS

Subject: Guidance on the Application of Regulation 13 of MARPOL Annex VI Tier III Requirements to Dual Fuel and Gas-Fueled Engines

1. Reference

- 1.1 MARPOL, Consolidated Edition 2017, as amended
- 1.2 IMO Circular MEPC.1/Circ.854, Guidance on the Application of Regulation 13 of MARPOL Annex VI Tier III Requirements to Dual Fuel and Gas-Fueled Engines, dated July 1st 2015.

2. Purpose

- 2.1 The purpose of this Marine Circular is to communicate the need for uniform application of Regulation 13 of the International Convention for the Prevention of Pollution from Ships (MARPOL) Annex VI Tier III requirements to dual fuel and gas-fueled engines.

3. Applicability

- 3.1 This Marine Circular applies to all Palau registered ships with installed dual fuel or gas-fueled engines that are subject to the Nitrogen Oxide (NOx) certification requirements of Regulation 13 of MARPOL Annex VI.

4. General Information

- 4.1 The NOx certification requirements of MARPOL Regulation VI/13 includes dual fuel engines (those which can simultaneously use both liquid and gas fuel).
- 4.2 MEPC 66 adopted amendments to the NOx Technical Code 2008 to cover precisely certain specific aspects to NOx certification.
- 4.3 MEPC 67 adopted amendments to MARPOL Annex VI, Regulation 2.14 extending the definition of a "marine diesel engine" to include gas-fueled ones installed on ships constructed on or after March 1st 2016 and those which are installed as additional or non-identical replacement on or after that date.

- 4.4 MEPC 68 subsequently approved amendments to the NOx Technical Code 2008 about the certification of gas-fueled engines. These steps may be seen as complementary to the International Code of Safety for Ships using Gases or other Low-flashpoint Fuels (IGF Code), adopted by MSC 95 in June 2015 (IMO Resolution MSC.391(95))
- 4.5 The IMO has issued circular MEPC.1/Circ.854 containing guidance on the application of Regulation 13 of MARPOL Annex VI Tier III requirements to dual fuel and gas-fueled engines regarding:
- Expected certification approaches for gas-fueled and dual fuel engines;
 - Recordkeeping;
 - Actions to follow if gas fuel is not available;
 - The use of auxiliary control devices (ACDs).

5. Future Changes

- 5.1 The Palau Ship Registry Administrator will continue to be aware of any future changes including future amendments to both MARPOL Annex VI and the NOx Technical Code and the requirements for dual fuel and gas-fueled engines and will advise owners, operators, managers, Masters and Recognized Organization accordingly.

6. Contact

- 6.1 Any inquiries concerning the subject for this Marine Circular should be directed to the Palau Ship Registry Administrator at technical@palaureg.
